

RETRAPLEX[®] GREASE

DON'T MAKE IT COMPLEX...GET RETRAPLEX®

Grease solutions formulated to increase productivity and extend the life of equipment from a brand you can trust!

We know grease – it's in our name. And we know that you're looking for the performance, value, and durability to get the job done, no matter what that job is. Drydene delivers with a heritage of reliability and toughness in our family of greases designed for a wide range of automotive, heavy duty, and industrial applications. Drydene products are built with our exclusive ALL Technology®, to ensure any product you use meets our high Advanced Lubricity Life standards. If you need products that perform in extreme conditions, choose Drydene.

WHY DRYDENE RETRAPLEX® GREASE?

- › Extends the life of light to heavy-duty equipment
- › Increases equipment performance and efficiency
- › Optimal extreme pressure and temperature operations
- › Protection against wear and corrosion
- › Outstanding year-round performance in both low and high temperatures
- › Available in Tubes, Pails, Kegs and Drums
- › A heritage of superior service and competitive value
- › An American-owned and operated company

DRYDENE RETRAPLEX® RUBY RED PLUS HEAVY DUTY LITHIUM COMPLEX EP 2 GREASE

TYPICAL PROPERTIES

Color/Appearance

- › Deep Red/Tacky

Load Carrying

- › ISO 220 base oil
- › Timken OK load of 60
- › Four-ball weld of 500 kg

Wear Protection

- › Load wear index of 90
- › Drop point of 520° minimum

Water Resistance

- › Water washout of 3% by ASTM D1264 test

PACKAGING

- 10/14 oz cases (Part #D5020211)
- 35 lb pails (Part #D5020210)
- 120 lb kegs (Part #D5020207)
- 400 lb drums (Part #D5020209)

DRYDENE RETRAPLEX® ONYX 5% MOLY SEVERE DUTY LITHIUM COMPLEX GREASE

TYPICAL PROPERTIES

Color/Appearance

- › Dark Gray/Smooth

Load Carrying

- › Four-ball weld point 620 kg min.
- › Timken OK load of 60

Wear Protection

- › Load wear index 98
- › Highest non-seizure load index 126

Water Resistance

- › Water washout of 1%
- › Water sprayoff of 18%

PACKAGING

- 10/14 oz cases (Part #D5050211)
- 35 lb pails (Part #D5050210)
- 120 lb kegs (Part #D5050207)
- 400 lb drums (Part #D5050209)

DRYDENE RETRAPLEX® TOPAZ EP 2 PREMIUM MULTIPURPOSE LITHIUM COMPLEX

TYPICAL PROPERTIES

Color/Appearance

- › Amber/Very tacky

Load Carrying

- › Timken OK load of 60
- › Four-ball weld of 400 kg

Wear Protection

- › Four-ball scar of 0.5 mm
- › Passes ASTM D1743 Rust Prevention Test

Water Resistance

- › Water washout of <1% by ASTM D1264 test

PACKAGING

- 10/14 oz cases (Part #D5012211)
- 35 lb pails (Part #D5012210)
- 120 lb kegs (Part #D5012207)
- 400 lb drums (Part #D5012209)

DRYDENE RETRAPLEX DIAMOND BLUE™ EP 2 ADVANCED WATER-RESISTANT POLYMER / LITHIUM COMPLEX GREASE

TYPICAL PROPERTIES

Color/Appearance

- › Blue/Smooth/Very Tacky

Load Carrying

- › Four-ball weld of 620 kg
- › Four-ball scar of 0.41mm

Wear Protection

- › Load Wear Index of 101
- › Copper Corrosion rating 1a (ASTM D4048)

Water Resistance

- › Water washout of 1.8% ASTM D1264 test

PACKAGING

- 10/14 oz cases (Part #D5030211)
- 35 lb pails (Part #D5030210)
- 120 lb kegs (Part #D5030207)
- 400 lb drums (Part #D5030209)

DRYDENE RETRAPLEX® RUBY RED EP 1 MULTIPURPOSE LITHIUM COMPLEX GREASE

TYPICAL PROPERTIES

Color/Appearance

- › Red/Very Tacky

Load Carrying

- › Four-ball weld of 400 kg
- › Timken OK load of 60

Wear Protection

- › Four-ball scar of 0.5 mm
- › Passes ASTM D1743 Rust Prevention Test

Water Resistance

- › Water washout of <1% by ASTM D1264 test

PACKAGING

- 10/14 oz cases (Part #D5010111)
- 35 lb pails (Part #D5010110)
- 120 lb kegs (Part #D5010107)
- 400 lb drums (Part #D5010109)

RUBY RED PLUS EP 2

DRYDENE RETRAPLEX® RUBY RED PLUS EP 2

DRYDENE RETRAPLEX RUBY RED PLUS is a heavy-duty lithium complex grease featuring ALL Technology® chemistry and recommended for a wide range of applications, requiring an added level of EP and load-carrying protection.

- Formulated with ISO 220 base oils to ensure durable and consistent film strength under heavy loading, elevated operating temperatures and extended service intervals
- Advanced polymers help the grease maintain its tackiness and adhesiveness even at high temperatures
- Ultra-durable anti-wear additives deliver outstanding protection against surface pitting and scarring
- Minimizes fretting during both high-speed and high-temperature applications

APPLICATIONS: Heavy-Duty Trucks, Passenger Cars, Wheel Bearings, Roller Conveyor Systems, Construction Equipment

DIAMOND BLUE EP 2

DRYDENE RETRAPLEX DIAMOND BLUE™ EP 2

DRYDENE RETRAPLEX DIAMOND BLUE is engineered using select base oils that are blended with a water-resistant polymer system to promote adhesion and product stability for use in the toughest on-road and off-road conditions where frequent and/or prolonged exposure to water, debris contamination or extreme temperatures may occur.

- Contains proprietary polymers and resilient soap thickeners that enhance adhesive properties when exposed to water
- Outstanding roll stability and very low water absorption helps maintain consistency under loading and adverse conditions
- Extremely low water spray-off and washout percentages means that Diamond Blue stays in place and lubricates exceptionally well even when exposed to or submerged in water

APPLICATIONS: Concrete/Paving Contractors, Mining, Quarry, Agriculture, Forestry, Sanitation

ONYX 5% MOLY EP 2

DRYDENE RETRAPLEX® ONYX 5% MOLY EP 2

DRYDENE RETRAPLEX ONYX 5% MOLY EP 2 is a severe-duty lithium complex grease fortified with EP, load protecting and tackifying additives to provide extended protection to off-road, construction, mining and agricultural equipment that require long-lasting shock loading protection.

- Molybdenum Disulfide (5%) helps reduce metal-on-metal friction and carry excess loading on moving parts
- High dropping point helps the grease maintain its performance even at excessively high operating temperatures
- Severe-duty EP and anti-wear additives help extend component life and reduce maintenance costs
- Ideal for use where protection from water washout and spray-off may be encountered

APPLICATIONS: Heavy-Duty Trucks, Passenger Cars, Wheel Bearings, Roller Conveyor Systems, Construction Equipment

TOPAZ EP 2

DRYDENE RETRAPLEX® TOPAZ EP 2 (Replaces RETRAPLEX® RUBY RED EP 2)

DRYDENE RETRAPLEX TOPAZ EP 2 is a premium multi-purpose grease designed for use in medium to moderate load applications where added protection against extreme pressures or high operating temperatures are required.

- Contains EP and anti-wear additives to ensure consistent performance across a range of applications and conditions
- High dropping ensures that complete lubrication occurs without degradation of thickeners or base oils
- Proprietary inhibitors help resist oxidation and corrosion
- Can be used in a variety of automotive and heavy equipment applications where product consolidation is desired

APPLICATIONS: Passenger Cars and Trucks, Over-The-Road Trucks and Buses, Wheel Bearings, Chassis, Agricultural Equipment

RUBY RED EP 1

DRYDENE RETRAPLEX® RUBY RED EP 1

DRYDENE RETRAPLEX RUBY EP 1 is a lithium complex grease designed for general lubrication use for medium to moderate load applications in both on and off-highway equipment.

- Outstanding year-round performance in both low and high temperatures
- Optimal extreme pressure, temperature and wear protection, especially disk brake bearings
- Excellent pumpability in low ambient temperatures in both manual and air-operated delivery/dispensing systems
- Enhanced tackifiers keep grease in place to resist thinning and water washout

APPLICATIONS: Passenger Cars, Pickup Trucks, Tractors, General Chassis Lubrication, Wheel Bearings
