

Twin Soluble Rust Preventative 110

WATER-SOLUBLE RUST PREVENTATIVE

TWIN SOLUBLE RUST PREVENTATIVE 110

Twin Soluble Rust Preventative 110 is a water soluble rust preventative for in-process protection of most metals. This versatile product is ideal for dip tank operations, in submerged pressure testing of castings, and as an additive to soluble cutting fluids, cleaning solutions or the final rinse stage of power spray washers. Used at 5 to 10% concentration in water, the invisible dry film will offer short term protection in typical indoor storage conditions.

Twin Soluble Rust Preventative 110 is shipped as an amber colored liquid concentrate. It is effective and compatible with hard or soft waters, forming a fluorescent green colored solution that is transparent and non-foaming.

TYPICAL PHYSICAL PROPERTIES

Appearance	Amber Liquid
Specific Gravity	1.04
pH, 5% Volume	9.5
Flash Point	None
Film Type	Dry
Herbert Test (IP 125/77)	Pass @ 1% in Water
Indoor Protection	Up to 6 months
