TWIN DEGREASER 234

DESCRIPTION:

TWIN DEGREASER 234 is a special blend of no flash solvents designed to quickly penetrate, dissolve, and remove grease, oil, and other soils. It is a very powerful cleaner, yet is pleasant to use because it contains special perfumes that mask the normally toxic odor.

This multi-purpose degreaser is excellent for cleaning machinery, electrical equipment, and most types of machined parts. TWIN DEGREASER 234 is especially designed for cleaning electric motors as it dries quickly and leaves no film. It may be applied by customary methods of wipe, brush, dip, or spray. TWIN DEGREASER 234 does not contain carbon tetrachloride, trichlorethylene, or silicone.

PHYSICAL PROPERTIES:

Flash point	None
Odor	Pleasant, mild
Residue	None
Specific Gravity	1.30
Color	Water Clear
Drying Time	Very fast
Pounds per gallon	10.5
