

MAG 1[®] LITHIUM MARINE GREASE

GREASES INDUSTRIAL LUBRICANTS AND GREASES

Featuring MAG 1® with FMX® Technology – Friction Management for Xtreme protection™. MAG 1® provides unsurpassed protection and performance.

MAG 1° Lithium Marine Grease is specially formulated with premium, state-of-the-art lithium complex grease. This is tacky grease resists water washout, even under severe operating conditions, including saltwater.

MAG 1® provides outstanding control of friction and wear. Advanced molecules bond together to create a wear-resistant shield that works to build barriers that reduce friction and wear.

WITHSTANDS THE MOST EXTREME CONDITIONS

MAG 1® provides unsurpassed protection even in the harshest conditions of hot and cold climates, pressure, micropitting or oxidation.

EVOLUTIONARY PERFORMANCETM

OEMs continue to evolve equipment designs and operating conditions are becoming more severe. These changes increase stress on plain bearings, roller bearings, gears and couplings. One brand has evolved right alongside today's equipment – MAG 1°. Only the most advanced greases meet the difficult challenges of effectively balancing performance, strength and durability.

MAG 1 Grease is specially engineered and formulated to provide:

PERFORMANCE

• Protection for equipment life and reliability.

STRENGTH

• Excellent wear, pitting and corrosion protection.

DURABILITY

- Longer equipment life.
- Optimized maintenance cost and uptime.
